

**Mandatory Language for Monitoring and Reporting Violation
SURFACE WATER MONITORING, ROUTINE MAJOR**

The SLC WSC water system PWS ID TX1470031 has violated the monitoring and reporting requirements set by Texas Commission on Environmental Quality (TCEQ) in Chapter 30, Section 290, Subchapter F. Public water systems that treat surface water and/or ground water under the direct influence of surface water are required to submit monthly operating reports with operational data of the water provided to their customers.

We failed to monitor and/or report the following constituents Late Submission of SWMOR

This/These violation(s) occurred in the monitoring period(s) September 2024
<monitoring period of violation>

Results of regular monitoring are an indicator of whether or not your drinking water is safe. We did not complete all monitoring and/or reporting for surface water constituents, and therefore TCEQ cannot be sure of the safety of your drinking water during that time.

We are taking the following actions to address this issue:

Added an automatic reminder to our computer program so that the operator ensures there is enough mailing time so that it will arrive by the 10th of each month.
<corrective actions>

Please share this information with all people who drink this water, especially those who may not have received this notice directly (i.e., people in apartments, nursing homes, schools, and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.

If you have questions regarding this matter, you may contact Harley Jones/Klein Wiley at 254-724-3415
